Complaint Against: California Water Quality Control Board, Santa Ana Regional Division

To whom it may concern:

My name is Libi Uremovic. I am the independent Auditor that uncovered the \$400 Million Federal Bond Fraud & Embezzlement scam in the City of Beaumont, over \$70 Million of which was Embezzled through the City's Sewer Bonds.

SEC Subpoenas, California State Controller Report, and the Indictments of the City Manager, City Attorney, Public Works Director, Economic Development Director, Finance Director, Planning Director, and Chief of Police can be viewed on beaumontgate.org.

The Beaumont Audits have disclosed that the Santa Ana Regional Water Quality Control has Colluded with the City of Beaumont to Commit Fraud, Forged EPA Documents, Violate Federal 4th Amendment to Illegal Search and Seizures, and use the Water Board Agency for Predatory Purposes.

Union Bank set up the Ghost Account in order to Embezzle the money, but it took the Gross Negligence and Collusion of the California Water Quality Control Board to fake the construction of Infrastructure for over 20 years.

For the past three years I have submitted Complaints with backup Documentation to the State Water Quality Control Board in Sacramento in the hopes that the State was not aware of the illegal actions of the Regional Board. The State Water Board's response has been to Destroy the Forged EPA Documents and continue to Collude with the City of Beaumont.

TO THIS DAY the California Water Quality Control Board claims that the City of Beaumont has a fully functioning Recycled Water Facility that produces an 'equivalent' of Title 22 Compliant Recycled Water

I am requesting the Federal EPA Investigate the California Water Quality Control Board for Forging EPA Documents, Destroying EPA Documents, Using a Federal EPA Agency for Predatory Purposes, Illegal Search and Seizure,

The California State Water Quality Control Board obligations are:

PROTECT SURFACE WATERS AND PUBLIC HEALTH: The Water Board Oversaw the 2004 Adjudication of the Beaumont Basin, which 'legally' allowed the Overdraft of the Beaumont Basin for 10 years. It also appears that the City is drilling into the South Beaumont Basin and using other Overlyers' Potable Water to dilute the City's Sewage with the State Water Board's knowledge and consent.

FRAUD/FORGED GOVERNMENT DOCUMENTS: The State Water Board has colluded with the City of Beaumont, Riverside County, and Wildermuth Environmental to Forge EPA Documents, altering the definition of words such as 'recycled water', 'tertiary treated', and 'water'.

INSPECTION/VERIFICATION: The State Water Board never Inspected Beaumont's Facilities or they would have seen that the recycled water facility was never constructed. For 20 years Wildermuth Environmental was the only 'Expert' used in by the Regional Board, City of Beaumont, STWMA, and the Beaumont Basin Wastermaster.

NEGLIGENCE/REFUSAL TO INSPECT OVERSEE CONSTRUCTION AND INDUSTRIAL STORMWATER DISCHARGE: In the last 15 years the City of Beaumont has grown from 12,000 to 45,000 people with no oversight EPA Permits or oversight. Beaumont has 31 heavy Industrial Companies with no NPDES Permit for Industrial Waste.

VIOLATION OF FEDERAL 4TH AMENDMENT RIGHT TO ILLEGAL SEARCH AND SEIZURE: The Staff and Board California State Water Quality Control is using the Agency for predatory purposes. The Board has illegally entered the Bingham Property and Forged an Order against the Bingham's to intimidate them because Judy Bingham was uncovering Beaumont's Bond and Construction scam. The Board continues to deny the Citizens of Quail Valley the right to use their property based on a Fraudulent EPA Report.

Audit Packets:

State Water Quality Control Board Staff, Board Members, and Wildermuth Environmental
1993 Documents showing Original Embezzlement and Negligence
Overdraft of the Beaumont Basin
Forged Sewer Capacity
Maximum Benefit Commitments
Use of Government Agency for Predatory Purposes
Blue Baby Scam

I am requesting the Federal EPA Investigate the Illegal Activity of the California Water Quality Control Board and Issue a Cease and Desist on the City of Beaumont Wastewater Treatment Facility to prevent further deterioration of the Beaumont Basin and the Pass Area Citizens' quality of life.
