Audit IX - Office Of The City Clerk

Our system of government is based on checks and balances. The position of City Clerk is designed to be an important separate body of the legislation, not an extension of the City Manager.

City Clerk duties are created by state law and local ordinances. Beaumont Municipal Code lists the city ordinances governing the city clerk in section 2.08.010 – 2.08.040 and names the body of government as: "...a city council, city clerk, a city treasurer, chief of police, recorder, city attorney, ..." The city ordinances have not been updated since 1913 when Beaumont only had a few hundred people.

When the Brown Act refers to the duties of the 'legislative body' they are referring to those officers assigned to specific duties listed under California State Law. The duties of one legislative body can not be transferred or assigned to the personal secretary of a separate legislative body.

California State Law lists the duties of the City Clerk under Government Code 40801 - 40814:

40801: The city clerk shall keep an accurate record of the proceeding of the legislative body and the board of equalization in books bearing appropriate titles and devoted exclusively to such purposes, respectively. The books shall have a comprehensive general index.

40802: The city clerk is the accounting officer of the city and shall maintain records readily reflecting the financial conditions of the city.

40804: The city clerk shall cause a summary of the city's financial report required by Section 53891, in a form prescribed by the State Controller, to be published once in a newspaper of general circulation, pursuant to Article 1 (commencing with Section 6000), chapter 1, Division 7, Title 1 of the Government Code. If there is no such newspaper he shall cause copies of the statement to be posted in three public places in the city designated by ordinance as the places for posting of public notices.

40806: The city clerk shall keep a book marked "ordinances" and record in it all city ordinances with his certificate annexed to each, stating:

- (a) It is a true and correct copy of a city ordinance.
- (b) The ordinance number.
- (c) It has been published or posted pursuant to law.

40810: The city clerk is the ex officio assessor unless the legislative body provides for the assessment and collection of city taxes by county officers or otherwise.

40811: The city clerk is the custodian of the city seal.

In the City of Beaumont the office of the City Clerk is ceremonial only. Page 33 of the Budget lists the Staffing for the City Clerk Department as one (1) part time City Clerk with total wages of \$2,000. The current City Clerk is paid \$34.50 every two (2) weeks.

The City of Beaumont has claimed that Shelby Hanvey is the 'Deputy City Clerk', but Hanvey is listed on the Employee Roster as 'Assistant to the City Manager' and all of Hanvey's salary and benefits are derived from the City Manager Department. It is Hanvey that signs all documentation that should only be verified by the city clerk.

I called the City of Beaumont and asked for the 'City Clerk'. Harvey came to the phone and said: "This is Shelby." I stated my name, date, time, and said: "This conversation is being recorded. State your Name and Job Title".

Harvey immediately put me on hold again without disclosing her name and job title.

I am then transferred to the City Attorney and I say to him: "This conversation is being recorded. State your name and Job Title". The City Attorney then twice states: "You can't record me, it's a federal crime". Then he hung up.

A government employee on a government telephone line on the government payroll has no expectations of privacy. It is unclear if the City Attorney was trying to intimidate me or if he simply has no concept of the law.

Seriously, that's what their City Attorney said, "it's a federal crime"? 18 U.S.C. 2511(2)(d) permits recording telephone calls with the consent of at least one of the parties involved. However, Cal.Penal Code 632-638 makes California one of the 12 states that require the consent of all parties involved. State crime, not Federal, and all he had to do was give verbal consent. Interesting reaction.

Libi,

What exactly is your goal with this post? You start by declaring a thesis but then you really don't address the thesis. Your thesis is that "our system of government is based on checks and balances" and then hint that the City Clerk is functioning to violate this system. The City Clerk is not violating any of the codes you have listed. Further, the Brown Act specifically states that an individual is not considered a legislative body but that is beside the point. You cannot impose definitions declared in one piece of legislature into another without some sort of legislature to bridge the two. But all of that is moot because that's not really what I want to say.

This is exactly the type of behavior that I was referring to in your water bill patch. What type of response do you expect from city workers when they are ambushed? If they stated their name and position, what would you have done with this nugget of information? Take the recording to a meeting? I guarantee that moment they hung up they were talking about the 'psycho women on line two.' Then when you bring up the subject in a meeting they don't take you serious. The problem is again your tactics. If the point of your post was 'there's a problem and we need to fix it,' then you failed because the take away message is the response to your ambush. Don't believe me? Notice that Ben only talked about the response you got and not the problem. You have to change your tactics if you want results.

the position of the city clerk is to prevent forging of government documents and to account for the finances - it's a 3rd set of eyes to help prevent the city manager and finance director from conspiring against the people..

the city manager is stating to prosecution that hanvey is the 'deputy city clerk' and not his personal assistant the prosecution has come back to me to clarify the situation...this is the clarification of the situation...

city workers are not being 'ambushed'...every audit is being printed for the public to view...

the 'nugget of information' is that the city now refuses to acknowledge that hanvey is the

it also means that your city attorney is a loser....if he was a decent lawyer - or did his homework - he would have recognized my last name and been smart enough to run the other direction....

my brother was a lawyer, judge, and on the board of directors for the cali trial attorneys' association for decades....taping phone conversations is standard procedure

Calling a person at work with a tape recorder in hand and demanding them to state their name and title is a lot like an ambush. She was expecting to assist a citizen with a concern not filed attacks on her job title or duties as determined by her superiors.

I still have a hard time seeing how making personal attacks is a step toward anything productive. If you called me a loser because I'm not threatened by you or your brother's occupation, I wouldn't even bother spending the time on the phone to tell you anything. I would just hang up on you. It would seem obvious to me that you don't really have anything important to say and that you just want push your weight around.

See how you still haven't actually addressed the problem or a solution to it? The problem you have is with the out of date codes that allows the city to operate like it did 80 years ago. But instead of saying this you would rather just make personal attacks. Let's have a grown up discussion regarding the actual problem and propose some solutions maybe.

And I was only pointing out the lack of professionalism shown. The City Attorney should have advised the employee to get back on the phone, calmly say "you do not have my permission to record this conversation", and then ask if she can assist the caller within the scope of her duties. Why the C.A. got on the phone and misquoted the law, or got on the phone to say anything at all, is what I found odd. The City showed a lack of professionalism, true, but I fail to understand what you were wishing to accomplish, Libi. What information were you after, and how would you use it? I thought it was open knowledge about how Beaumont strangely has just a part time city clerk.

And what you pointed out was regarding something that doesn't have anything to do with the real problem. You may be right but my point is that Libi is stating some symptoms for a deeper problem and instead of addressing the actual problem she directs the conversation toward the symptoms. The tactics she employs are really without class and don't do anything to further any conversation regarding a real solution.

Not Jolly but my reaction would be however I was trained to handle such things. If the city says you are not to talk to anyone who is recording then I would do exactly what she did. Actually it does, the real problem of SLOPPY BOOKKEEPING if that is her job. Often times when there is "sloppy" bookkeeping over many years someone starts helping themselves to a bit here and a bit there soon they have taken 581000 and when caught there is still 81k IN THEIR DESK DRAWER (see MO State University and the school bookstore)

Jolly Roger

Do you know if the "SLOPPY BOOKKEEPING" is her job? You phrase it as a question, not a statement. How would her schooling have anything to do with this? If we are

investing in her it would seem to make a lot more sense to support her rather than publicly bashing her competency, especially when you have no idea if it's even her job. She is trying to better herself and look how you're treating her. You should be ashamed. If you have a problem with her orders you should take it out with her boss, not her.

Let me give it a whack.

The problem is out dated policies that force (or allow) the city officials to conduct business in a manner that we do not agree with. We need to update these policies so that the city officials conduct business differently. Where do we go from here? Any good ideas? Any pertinent observations? Anything information that we use to inspire change in policy?

See how I'm addressing the issue and not attacking people? This is how you conduct yourself in a manner to be taken seriously.

no, the problem is that our tax payer dollars are being pillaged....

there are a number of cities in cali that don't have a functioning city clerk's department....banning is another...

this audit goes to the d.a.'s office and state attorney general because they prosecute in this area...

the state needs to establish uniform accounting procedures for all cities and government agencies and close the loopholes...

of course it's going to take the people to stop following blindly....and if we've learned one thing in the last four years is that our elected and appointed officials are not going to stop themselves....regardless of political party

you want to 'do something' then contact your local representatives and get some legislation going to control the local governments....

feel free to walk your own walk and take matters into your own hands the citizenry of beaumont asked me to step in ... why didn't they call you...?

maybe if you listed your actual name and picture your community would not think you're just a planted pawn for your corrupt government....

it's too bad there's never been a printed news source with a honorable editor that would have reported the violations of the brown actmaybe your city wouldn't be in millions of dollars in debt today if the printed press had ever existed in beaumont..

Hey you're starting to get the hang of it. Ok, so the only portion of your response that isn't attacking me, tooting your own horn, or just a statement of the symptoms again is "the state needs to establish uniform accounting procedures for all cities and government agencies and close the loopholes." This is good. I think we can work with this. So now is where you would come with some questions or ideas like "we need to change government code such and such to say such and such." Then we would give either suggestions or point out possible errors in the newly proposed code. Isn't this fun?! See how ambushing city workers neither addresses the issue nor works toward a solution? All I does is label you as busybody which causes people to discredit your ideas, whether they be good or bad.

Why do you care who I am so much? Does it matter? I'm not saying anything good or bad about the City. All I'm doing is pointing out that you may have a point but it's getting lost in your ego and tactics. All I'm trying to do is to get you to relive how you are acting so you can actually make a difference rather than make a spectacle of yourself.

Libi, I get the impression that you think I'm somebody that I'm not. If you knew who I was it wouldn't change a thing. Why? Because it doesn't matter who I am. I'm nobody you know. I have nothing to do with the city. My biggest concern is that Beaumont is developing a reputation, not for its corrupt government (not that I think it is) but for its public meetings that get high-jacked by "concerned citizens" turning the meetings into a theatrical spectacle. The messages they convey are off topic, inarticulate, offensive, and sometimes just down right mean. My posts have been directed toward your tactics, timbre and presentation. I hope that you will start attacking the problems, not the people, and propose solutions that are actually plausible.

As for Beaumont Citizens for Responsible Growth, BeaumontGate, and CVAN... These are exactly what give Beaumont a bad name. I think they have good intentions but are going about it in a really rotten way. CVAN, by the way, has a history of claiming they know more than they do. They spread misinformation to further their own agenda. Stop trying to be Erin Brockovich. Your not. And if you were, you would be all over that nitrate thing in Cherry Valley.

for others like jolly that don't seem to have a grasp on how governments work in a democratic society i'll write it out for you -

the local governments are controlled by the people - they elected council to supervise the city employees

when the city employees are pillaging the tax payer money they should be removed by council IMMEDIATELY

when council ignores the corruption of their employees it is the duty of the citizenry to remove council...

there are petition sights to start on-line petition drives ... maybe you guys can read up on the city of bell to get an understanding of the duties of the people....

my job is to audit...and prosecutions' job is to prosecute...it's the job of the people of the community to control their own employees and elected officials....

Ahhh but we have a city council who has the history of just turning off the mic to the public when they don't like what is being said. They turn off the mic because people are acting in the manner that I'm referring to (see above). If the people addressing the council start acting civilized with logical proposals and concise statements then they would start taking these people seriously. This is what I have been saying the whole time. Stop attacking people. Stop being rude. Stop making suggestions that are haphazardly constructed. You don't win the support of others when it is apparent that you are acting like a fool. If you're calm, composed, logical, and articulate, you will win over the people especially if the council continues to act the way you think they do.

The second time which was almost a year later the mic was cut in the middle. the amount is for the entire city managers' department - not just the one person...yes, that's how much they've spent in the last 6 months...

the numbers include the addition of what the city is coding on the general ledger as 'cigna' - but there is no cigna checks or automatic debits...

council salary is listed at \$42,000, but council only receives \$1,016.32 every two weeks plus \$400/month is paid out in health care benefits =\$26,000 total...

the city attaches \$3,592.77/month to the council budget under the guise of cigna...

city managers department salary runs \$18,000 - 19,000/every two weeks, but the city manager only pads his dept. with \$1,03.18 cigna plug ... i guess the city manager isn't as generous with pillaging his own dept. as he is with pillaging others...

hey police dept - city pads your payroll with a cigna plug of \$45,000/month...

and how much has been spent on salaries in the city clerks' dept..??

\$837.00 which proves that the city manager lies about harvey being the deputy city clerk ...

the financial update also list dept 1200 - administration - with payroll at \$732,268 for 6 months, but this should be about \$ about 573,000 including cigna....the cigna hit for this dept is \$8,000/month...

...which begs the question - where did the other \$1/4 million ..???

this is the dept that has health benefits for urban logic employees hidden in the back...maybe that has something to do with it...

the city left out dept 5050 - vehicle maintenance - this dept should have \$67,000 in payroll expenses including \$449/month cigna...

...and dept 7100 and 7200 - the ghost departments...

dept 7100 - \$80,000 payroll including \$2,200/month cigna

dept 7200 - \$280,000 payroll including \$3,200/month cigna...that's a big fat ghost ..

Wouldn't that Cigna be workmen's comp?

No that would likely be State Fund

no - they're padding the payroll and calling it workers' comp too, but that's a separate scam...

cigna is only on the general ledger - it never shows up on the check warrants ...

if the city had an excuse for the cigna transactions we would have heard it by now...or they can inform the public right now why the payroll is padded with cigna expenses....

the city's excuses to prosecution and the press is that i don't have all the information - but it's up to the city to provide the information and clarify their actions....

You keep saying prosecution...who is the prosecution at this point?

locally - county auditor/controller, grand jury, d.a. special operations

state - auditor/controller, state dept. insurance commission, board of accountancy

federal - f.b.i.

i've got no complaints with any of them...everyone has gotten back to me fast and seems to be doing their job...

i've still have to turn in the city attorney to the cali bar association, but i'm 'target marketing' for the f.b.i right now...they like to go after the big dogs....me too...

i left out the bank that handed the city \$1/4 billion knowing there was no way to pay it back...

So not really prosecution so much as investigators (at this point). No body is being prosecuted at this point.....

prosecution has to do their own investigations, but the audit saves them hundreds of man hours so they can use their resources to gather other information...

the reason i say 'prosecution' is because some investigative agencies don't want their activities revealed ...

and yes, the city has gone to various agencies to try to stop the audit

...how's that working out for you good 'o boys ...???

the city can always have their city attorney get on the phone to wow them with his 'expertise' ...

The same City Attorney that right before a City Council meeting served me with an administrative warrant to search my property while Urban Logic's Dave Dillon and Ernie Egger stood behind him laughing ? The same City Attorney who threatened to send 15 government agencies onto my property and shut down my business if I spoke at another City Council meeting ? The same City Attorney who said there was no conflict of interest with Urban Logic recommending projects to Council as Directors of Planning, Economic Development, and Public Works and making a profit on those same projects? This man needs to be reported to the Bar Association and stripped of his ability to practice law. IMHO
