Re: Letter Agreement for Sewer Pipeline Easement

Dear Mr. Kapanicas:

The Beaumont-Cherry Valley Recreation and Park District ("District") is in receipt of the request by the City of Beaumont ("City") for an easement across the District's property at the Noble Creek Community Center ("Easement"). The District's Board of Directors approved execution of the Easement, subject to the following conditions have been previously discussed with and concurred in by City staff:

1. Concurrent with the City's installation of the its sewer pipeline in the Easement, the City will install three points of connection ("stub outs") on the City's sewer pipeline, at the City's cost and at the locations to be determined by the District, for future use by the District, if and when the District decides to connect the Noble Creek Community Center to the City's sewer system.

2. Prior to delivery of the executed Easement, the City will deliver $770.00 to the District, which represents the fair market value for the Easement as determined by the City's appraiser.

2001 - 1999 Dave, the City needs to be reimbursed from CFO? Thx Bill

At the bottom of this letter is a place for your signature to affirm the City's agreement with the above related conditions. Upon the District's receipt of a signed original of this letter agreement and $770.00 from the City, the District will deliver the executed Easement to the City. If you have any questions, please contact me at your convenience.

Sincerely,

Jarold Foster
Board Chairman

Notification No. 5-407-94

AGREEMENT REGARDING PROPOSED STREAM OR LAKE ALTERATION

This agreement, entered into between the State of California, Department of Fish and Game, hereinafter called the Department, and Omega Homes II, Inc. of Garden Grove, State of California, hereinafter called the Operator, is as follows:

Whereas, pursuant to sections 1600 et seq of the California Fish and Game Code, the Operator, on the 19th day of September, 1994, notified the Department that he intends to divert or obstruct the natural flow, or change the bed, channel, or bank of, or use material from the streambed of the following waters: Marshall Creek, Riverside County, California, Section 34, Township 2S, Range1W.

Whereas, the Department, represented by David H. Smith, has determined that such operations may substantially adversely affect existing fish and wildlife resources including : lizards, snakes,birds and all aquatic resources and wildlife in the area.

Therefore, the Department hereby proposes measures to protect fish and wildlife resources during the Operator's work. The Operator hereby agrees to accept the following measures/conditions as part of the proposed work.

If the Operator's work changes from that stated in the notification specified above, this Agreement is no longer valid and a new notification shall be submitted to the Department. Failure to comply with the provisions of this Agreement and with other pertinent code sections, including but not limited to Fish and Game Code sections 5650, 5652, 5937, and 5948, may result in prosecution.

Nothing in this Agreement authorizes the Operator to trespass on any land or property, nor does it relieve the Operator of responsibility for compliance with applicable federal, state, or local laws or ordinances. A consummated Agreement does not constitute Department of Fish and Game endorsement of the proposed operation, or assure the Department's concurrence with permits required from other agencies.

This Agreement becomes effective on date of Department's signature and terminates October 1, 1995 for project construction only. This Agreement shall remain in effect for that time necessary to satisfy the terms/conditions of this Agreement.

STREAMBED ALTERATION CONDITIONS

1. The following provisions constitute the limit of activities agreed to and resolved by this Agreement. The signing of this Agreement does not imply that the Operator is precluded from doing other activities at the site. However, activities not specifically agreed to and resolved by this Agreement shall be subject to separate notification pursuant to Fish and Game Code sections 1600 et seq.

2. The Operator proposes to straighten and reduce in width a streambed, and to reinforce the sides with rip rap.

3. The agreed work includes activities associated with Number 2 above. The project area is located east of Beaumont Avenue, south of Cougar Avenue, city of Beaumont in Riverside County. Specific work areas and mitigation measures are described on/in the plans and documents submitted by the Operator and shall be implemented as proposed unless directed differently by this Agreement.

4. The Operator shall request an extension of this Agreement prior to its termination if an extension is desired. The request, with appropriate fees, shall be submitted to the above address. The Operator may receive up to one extension of this Agreement. This Agreement shall remain in effect for the time necessary to satisfy the terms/conditions of this Agreement.

5. Operator shall construct the new channel as provided in plans dated May 13, 1994 submitted to the Department, with the following exceptions:

a) Side slopes shall be constructed of non-concreted riprap except within 100 feet of existing roadways, where concreted sections are necessary to protect those roadways.

b) The soft bottom gradeline shall be a minimum of 14 feet in width for the entire length of the riprap channel.

6. Spoil sites shall not be located within a streambed, where spoil could be washed back into a stream, or where it will cover aquatic or riparian vegetation.

7. Raw cement/concrete or washings thereof, asphalt, paint or other coating material, oil or other petroleum products, or any other substances which could be hazardous to streambed life, resulting from project related activities, shall be prevented from contaminating the soil and/or entering the waters of the state. Any of these materials, placed within or where they may enter a stream, by Operator or any party working under contract, or with the permission of the Operator, shall be removed immediately.

8. The Operator shall comply with all litter and pollution laws. All contractors, subcontractors, and employees shall also obey these laws and it shall be the responsibility of the Operator to ensure compliance.

9. No equipment maintenance shall be done within or near any stream channel or lake margin where petroleum products or other pollutants from the equipment may enter these areas under any flow.

10. The clean-up of all spills shall begin immediately. The Department shall be notified immediately by the Operator of any spills and shall be consulted regarding clean-up procedures.

11. The Operator shall provide a copy of this Agreement to all contractors, subcontractors, and the Operator's project supervisors. **Copies of the Agreement shall be readily available at work sites at all times during periods of active work and must be presented to any Department personnel, or personnel from another agency upon demand.**

12. The Operator shall notify the Department, in writing, at least five (5) days prior to initiation of construction (project) activities and at least five (5) days prior to completion of construction (project) activities. Notification shall be sent to the Department at 330 Golden Shore, Suite 50, Long Beach, Ca. 90802, Attn: ES

13. The Department reserves the right to enter the project site at any time to ensure compliance with the terms/conditions of this Agreement.

14. The Department reserves the right to suspend and/or revoke this Agreement if the Department determines that the circumstances warrant. The circumstances that could require a reevaluation include, but are not limited to the following:

a. Failure to comply with the terms/conditions of this Agreement.
b. The information provided by the Operator in support of the Agreement/Notification is determined by the Department to be incomplete, or inaccurate.
c. When new information becomes available to the Department that was not known when preparing the original terms/conditions of this Agreement.
d. The Project as described in the Notification/Agreement has changed, or conditions affecting fish and wildlife resources change.

Comments: Andrew, I dropped a number from what Metro Builders should have been paid on the Payment Certificate No. 37 for CFD 93-1, Construction Fund Account #6711674007. The supporting documentation shows the correct amount of $41,971.41, not $4,197.41. Could you please wire transfer to them the difference of $37,774.00? If you have any questions, please do not hesitate to call me. Thank you.

Reference: Certified Payroll Reports
Project: Taylor Reservoir Tank

For your reference, this is an explanation for each payroll period, the classifications, and the hourly rates actually paid which may differ from the wage determination rates due to the following deductions.

Additionally, I have attached a **"Prevailing Wage Deduction Report"**, whereas for each person working on a prevailing wage job, there are deductions from their hourly rate for Health, Dental, & Life Insurance plus Incentive/Vacation pay. These deduction amounts is what it costs Superior Tank Co., Inc. for each employee, per hour for his or her benefits paid monthly and these benefits are already included in the PVW Rates therefore, we are allowed to deduct from the "Health & Welfare" portions and "Vacation" payments allowed by the DIR..

You will notice that each employee's deduction will differ as our "health" insurance is age rated. Additionally, some of the employee's do not have all the benefits, so not all deductions are withheld on all employees, you well need to refer to the attached list.

The deductions listed under "Other" are for other deductions, i.e., "dependent" health & dental insurance, uniforms, cash advance re-payment loans, wage levy's i.e. child support and the Training Fund deduction. These deductions are not taken from the employee, but are taken as a lump sum weekly deduction from the employee's net wages earned. These deductions are consented by the employee and or demanded by the courts.

Thank you,

Nancy Vargas

PREVAILING WAGE BREAKDOWN FORMULA

(Samples below)

STEP I

DETERMINE THE CLASSIFICATION, LOCATION & HOURLY RATE TO BE PAID TO THE EMPLOYEES

BOILERMAKER $40.46 OR 40.96 AND/OR LABORER/GRP 1 $29.27 0r 29.82

STEP II (Determine the hourly rate)

DEDUCT FROM THE HOURLY RATE ANY HEALTH/DENTAL AND/OR ANY OTHER FRINGE BENEFITS BEING PAID BY THE EMPLOYER I.E.

A. HEALTH=167.56/MOS DENTAL=35.68/MOS= $203.24 MONTHLY

B. TAKE 203.24 X 12/MOS. DIVIDE BY 52 WEEKS & THEN DIVIDE THAT BY 40 HOURS PER WEEK, I.E.

203.24X12= $2438.88 DIVIDE BY 52 WEEKS = $46.91/WK
DIVIDE THIS BY 40 HOURS/WK = $1.18PLUS .30 INCEN= $1.48/HR.

C. TAKE THE PREVAILING DEDUCTION RATE AND SUBTRACT IT FROM THE P.V.W. HOURLY RATE, I.E.

BOILERMAKER $40.46 LESS 1.48 = $38.98 (NEW HRLY RATE)

LBR/GROUP 1 $29.27 LESS 1.48 = $27.79 (NEW HRLY RATE)

STEP III - BOILERMAKER (Training Fund)

TAKE THE T/F AMOUNT OF .40 AND MULTIPLY IT BY WHATEVER HOURS THE EMPLOYEE WORKED ON THAT JOB AND DEDUCT IT FROM HIS TOTAL NEW EARNINGS, I.E.

38 HOURS X .40 = $15.20 / THIS AMOUNT IS DEDUCTED FROM THE EMPLOYEES CHECK AND PAID DIRECTLY TO THE CALIFORNIA APPRENTICESHIP COUNCIL

Project: **Taylor Reservoir Tank**

For your reference, this is an explanation for each payroll period, the classifications, and the hourly rates actually paid which may differ from the wage determination rates due to the following deductions.

Additionally, I have attached a **"Prevailing Wage Deduction Report"**, whereas for each person working on a prevailing wage job, there are deductions from their hourly rate for Health, Dental, & Life Insurance plus Incentive/Vacation pay. These deduction amounts is what it costs Superior Tank Co., Inc. for each employee, per hour for his or her benefits paid monthly and these benefits are already included in the PVW Rates therefore, we are allowed to deduct from the "Health & Welfare" portions and "Vacation" payments allowed by the DIR..

You will notice that each employee's deduction will differ as our "health" insurance is age rated. Additionally, some of the employee's do not have all the benefits, so not all deductions are withheld on all employees, you well need to refer to the attached list.

The deductions listed under "Other" are for other deductions, i.e., "dependent" health & dental insurance, uniforms, cash advance re-payment loans, wage levy's i.e. child support and the Training Fund deduction. These deductions are not taken from the employee, but are taken as a lump sum weekly deduction from the employee's net wages earned. These deductions are consented by the employee and or demanded by the courts.

Thank you,

Nancy Vargas

PREVAILING WAGE BREAKDOWN FORMULA

(Samples below)

STEP I

DETERMINE THE CLASSIFICATION, LOCATION & HOURLY RATE TO BE PAID TO THE EMPLOYEES

BOILERMAKER $40.46 OR 40.96 AND/OR LABORER/GRP 1 $29.27 0r 29.82

STEP II (Determine the hourly rate)

DEDUCT FROM THE HOURLY RATE ANY HEALTH/DENTAL AND/OR ANY OTHER FRINGE BENEFITS BEING PAID BY THE EMPLOYER I.E.

A. HEALTH=167.56/MOS DENTAL=35.68/MOS= $203.24 MONTHLY

B. TAKE 203.24 X 12/MOS. DIVIDE BY 52 WEEKS & THEN DIVIDE THAT BY 40 HOURS PER WEEK, I.E.

203.24X12= $2438.88 DIVIDE BY 52 WEEKS = $46.91/WK
DIVIDE THIS BY 40 HOURS/WK = $1.18PLUS .30 INCEN= $1.48/HR.

C. TAKE THE PREVAILING DEDUCTION RATE AND SUBTRACT IT FROM THE P.V.W. HOURLY RATE, I.E.

BOILERMAKER $40.46 LESS 1.48 = $38.98 (NEW HRLY RATE)

LBR/GROUP 1 $29.27 LESS 1.48 = $27.79 (NEW HRLY RATE)

STEP III - BOILERMAKER (Training Fund)

TAKE THE T/F AMOUNT OF .40 AND MULTIPLY IT BY WHATEVER HOURS THE EMPLOYEE WORKED ON THAT JOB AND DEDUCT IT FROM HIS TOTAL NEW EARNINGS, I.E.

38 HOURS X .40 = $15.20 / THIS AMOUNT IS DEDUCTED FROM THE EMPLOYEES CHECK AND PAID DIRECTLY TO THE CALIFORNIA APPRENTICESHIP COUNCIL

Memo

To: Deepak Moorjani, PE, Director of Public Works
From: John Wilder, Assistant Director of Public Works
Date: May 20, 2002
Subject: Noble Creek Sewer Project CFD 93-1

Metro Builders, the contractor for this project has requested 50% of their currently held retention be returned to them due to a shortfall in their cash-flow situation. To date $206,013.37 has been withheld and this request would represent a payment of $103,006.68. According to the contract documents the CFD has the option of waiving the 10% retention after 50% completion of the project if the Contractor exhibits aggressive progress to complete the job

Based on this criteria I have calculated what could be returned with your approval.

Total contract amount including extras:	2,384,011.99
Total retention withheld to date:	206,013.37
10% of total contract retention:	238,401.12
retention withheld to date minus 50% of total contract retention:	86,812.81

At this time any or all of $86,812.81 could be paid to Metro Builders. It is my recommendation that if this is to be paid the contractor be made aware that his progress is being monitored closely if future waiving of retention is requested.

Please let me know if you need additional information.

Approved for release of 50% retention.

RE: CFD Water Meter Fees

Dear David:

Thanks for taking the time at the site yesterday to speak with me out at the Oak Valley Greens site. As I mentioned, the attached water bills for meters located along Oak View Drive were sent to our office by mistake and should be billed to the CFD. As you are aware, we paid the original fee and installed the water meters prior to the CFD starting construction of the Oak View Drive landscape improvements (this is why the bill was sent to my office). Following the start of construction however, the CFD was responsible for the water charges. I also met with Aurielle at the Water District yesterday who supplied me with the attached change of ownership forms and stated that due to the mix up they would waive the penalty charges.

Should you have any questions, please call Aurielle and the District Directly or feel free to contact me at my office at (949) 477-6399.

Sincerely,

David A. Hudson
Vice President of Forward Planning
