RE: Water Bills for Beaumont Sports Park – Account Numbers 450059-00 & 450060-00

To Whom It May Concern:

It has come to the attention of the District that water bills have not been generated for the above accounts since April of 2000, although we have continued to provide water service to the property.

At the time of installation, both meters had starting read of 0. As of August 23, 2001, both meters read as follows:

Account No.	Meter No.	Prev. Read	Curr. Read	Cons.	Charges
450059-00	24153	0	28234	28234	$20,610.82
Service Charge					192.00
450060-00	24155	0	21970	21970	$16,038.10
Service Charge					192.00
TOTAL AMOUNT DUE					$37,032.92

The District appreciates that you have always paid the bills sent to you in a timely manner. Again, the District apologizes for this oversight. If you have any questions, please contact the District office at 909-845-9581.

RE: Water Bills for Beaumont Sports Park

Dear Chuck;

The City of Beaumont is in receipt of a water bill for the Sports Park that covers the period between April 2000 and August 23, 2001. You had indicated the billing was delayed for more than a year due to an oversight in placing it on your billing system. A portion of the water costs for that period are covered by CFD No. 93-1 insofar as they relate to the construction and start up of the facility which opened in September 2000. The remaining portion of bills relates to the ongoing operation of the park. We understand the City is now receiving regular billings.

Based on the breakdown you provided, CFD No. 93-1 will pay $20,802.82 immediately to cover the construction and start up costs. We would appreciate your assistance in paying the balance of the amount due for the period in question, $16,230.10 over the next 18 months by adding a charge of $1,803.34 to each bi-monthly water bill until the balance is paid in full.

Please let me know if this arrangement is acceptable to the District. Thank you very much for bringing this matter to our attention.

Very truly yours;
CITY OF BEAUMONT

Memo

To: Deepak Moorjani, PE, Director of Public Works
From: John Wilder, Assistant Director of Public Works
Date: May 20, 2002
Subject: Noble Creek Sewer Project CFD 93-1

Metro Builders, the contractor for this project has requested 50% of their currently held retention be returned to them due to a shortfall in their cash-flow situation. To date $206,013.37 has been withheld and this request would represent a payment of $103,006.68. According to the contract documents the CFD has the option of waiving the 10% retention after 50% completion of the project if the Contractor exhibits aggressive progress to complete the job

Based on this criteria I have calculated what could be returned with your approval.

Total contract amount including extras:	2,384,011.99
Total retention withheld to date:	206,013.37
10% of total contract retention:	238,401.12
retention withheld to date minus 50% of total contract retention:	86,812.81

At this time any or all of $86,812.81 could be paid to Metro Builders. It is my recommendation that if this is to be paid the contractor be made aware that his progress is being monitored closely if future waiving of retention is requested.

Please let me know if you need additional information.

Approved for release of 50% retention.
